

AI Compliance Automation

with Claude Code & Codex

Automate SOC 2, ISO 27001, GDPR, CCPA and DPDP workflows with expert review.

For SaaS, FinTech, HealthTech and regulated teams that need compliance maturity without building a large internal compliance department. I combine compliance expertise with hands-on AI implementation so your team gets working systems, not just documents.

What I build

- SOC 2 and ISO 27001 evidence trackers
- GDPR, CCPA and DPDP documentation systems
- Vendor risk review and approval workflows
- Regulatory deadline and jurisdiction trackers
- AI-assisted policy drafting and audit prep
- Dashboards and lightweight internal tools

How the engagement works

- 1 Audit the current compliance workflow
- 2 Define the automation roadmap and controls
- 3 Build with Claude Code, Codex and AI agents
- 4 Handover workflows, templates and review steps

Engagement options

Human review, traceability and audit-readiness built in

\$1.5k - \$3k

Compliance Automation Sprint

Fix one high-friction workflow: templates, tracker, tool setup and handover notes.

\$4k - \$10k

SOC 2 / ISO 27001 Setup

Control mapping, policy workflow, evidence tracker, audit checklist and owners.

\$5k - \$15k

Custom AI Compliance Agent

AI-assisted workflow for document review, research, gap analysis or audit prep.

\$1.5k - \$5k/mo

Monthly Compliance Ops Support

Ongoing regulatory tracking, documentation, vendor reviews and improvements.

Why work with Parth

12+ years across regulatory compliance, audit readiness and international operations - including SOC 2, ISO 27001, GDPR, CCPA, DPDP, ISO 9001, GMP and multi-jurisdiction compliance mapping.
