07 — FREQUENTLY ASKED QUESTIONS

Straight answers, so nothing is a surprise later

Q. Why do prices increase 10% annually?

Costs such as salaries, infrastructure, and regulatory tools rise every year. A 10% cap keeps this predictable and sits below the 20–30% typical across the industry.

Q. Can I switch between plans?

Yes. Upgrades take effect immediately with prorated billing; downgrades apply as a credit on your next invoice.

Q. Can I cancel anytime?

Yes, with 30 days' written notice. No penalties apply, and any unused prepaid period is refunded pro rata.

Q. Do you work with my industry?

Yes — all industries, with pre-built frameworks for 40+ sectors.

Q. Are custom engagements available?

Yes: single-country packages, project-based work, retainer-plus-project hybrids, and white-label delivery.

Q. Who pays government filing fees?

All government and statutory filing fees are paid directly by the client. BenchBrex fees cover management, filing preparation, and compliance service only.

Q. What if I add a country mid-year?

Additional country coverage is \$250/month, prorated from the date it's added.

Q. Which plan should I choose?

Book a free assessment. Companies with 1–3 countries typically start on Essential; 3 or more countries, or diligence-readiness needs, suit Global or Enterprise.

Q. What if you miss a deadline alert?

An automatic 5% credit applies to your next invoice, no claim required, capped at two credits per quarter.
